ENVIRONMENT, SAFETY AND HEALTH (EHS)

The Environment, Health, and Safety (EHS) department vows to improve its policies, procedures, programs, and equipment to attain all its goals.

- EHS successfully spearheaded the Environment Festival (EnviFest) 2010 by forming the EnviFest Committee. The program was formally launched and several vendors showcased their energy conservation products. An EnviFest Film Festival showcasing relevant environmental issues were shown. Part of the festival

was EnviQuiz which was participated in by 12 personnel from various Operations departments. To culminate the event, the committee partnered with Petron and Meralco to provide helpful tips on Energy Conservation and Efficiency. The EnviFest program, which was celebrated for the whole month of October, was featured in Operations World of Communication.
