Solatube® Designer Touches

Now The Choice Is More Than Clear

Solatube International, the innovator in daylighting solutions, now offers a completely new way for you to customize your daylighting experience.

Solatube Designer Touches provide sophisticated design options that empower your artistic expression of daylighting. You can create a daylighting experience that's entirely yours in just four easy steps.

Introducing Dual Lens Array Technology

The heart of the new system is our new Dual Lens Array technology that combines two lenses to provide complete daylighting customization. Each lens has been engineered to provide different functions, and work together to create a wide variety of choices for daylight color and diffusion. With Solatube Designer Touches, you'll love the ability to go beyond just brightening dark rooms to completely designing the daylight especially the way you want it.

The Effect Lens adjusts the light and offers choices to soften or warm the light color.

The Diffuser Lens controls the light diffusion within the room. Choose from crystal clear to radiant light.

Customize your Daylighting Experience in 4 Easy Steps

1 Choose Your Style
With three different trim styles, it's easier than ever to create a look to fit your décor.

White Trim
The standard dress ring comes in the ever-popular low-profile white color to blend with the ceiling.

Stainless-Tone Trim
The Stainless-Tone Trim is designed to complement metal finishes and is a great choice for modern designs.

Frosted Shade
The Frosted Shade with White Trim provides a clean contemporary look to any Solatube Daylighting System.

2 Pick Your Diffuser
Choose the Diffuser Lens you want to fill your room with bright sunlight.

Vusion™ Diffuser
The fresh design harmonizes with most décors, and provides the radiance of natural light.

Optiview® Diffuser
Considered the ultimate in diffuser design, the Optiview Diffuser uses a Fresnel lens to deliver crystal clear daylight and a unique view of the sky.

3 Select Your Effect
Use an Effect Lens to design your own daylighting experience.

4 Add More Function
Take daylighting to the next level by upgrading your Solatube Daylighting System to include lighting, dimming, and ventilation.

Light Add-On Kit
Switch on the light when the sun goes down.

Ventilation Add-On Kit
Perfect for bathrooms and areas requiring ventilation.

Daylight Dimmer™
Completely control the amount of sunlight with the flip of a switch.
